

GAINESVILLE NEUROLOGY GROUP, LLC

Clinton E. Branch, Jr., MD, FAAN, obtained his medical degree from the Medical College of Georgia (now Georgia Health Sciences University), completing his internship at Roanoke Memorial Medical Center in Virginia and his residency at Medical College of Georgia. Board certified in adult neurology by the American Board of Psychiatry and Neurology in 1979; he acquired his board certification in electroencephalography by the American Board of Electroencephalography in 1982. He became a fellow of the American Academy of Neurology in 1996. Dr Branch started Gainesville Neurology Group, LLC in 1979.

To promote neurological interest in future physicians, Dr Branch serves as an associate clinical professor in neurology for the Georgia Health Sciences University and Gainesville Neurology Group serves as a specialty rotation site for the university.

Dr Branch provides neurological care for patients age 20 and older.
